bag the ban.

the truth.....
About Plastic Bags

Despite the facts, plastic bags have gotten a bad rap. Here's the truth about your plastic bags and why they are the right choice for the environment, your wallet and your community.

Litter and Composition

Plastic shopping bags made in the United States are made from natural gas.

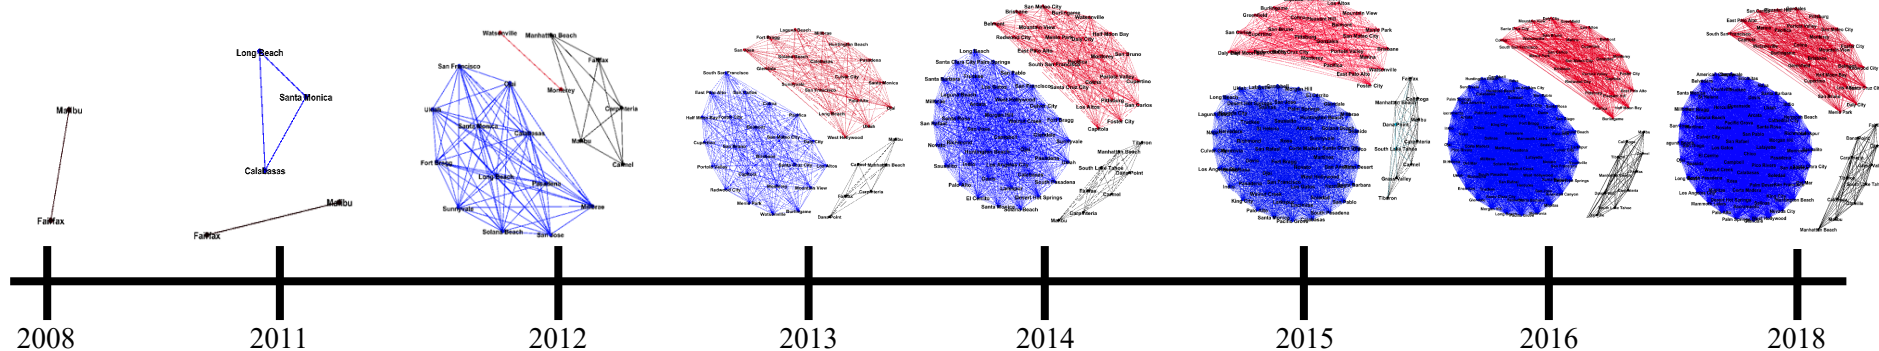

0.5%
 EPA data shows that plastic shopping bags make up only 0.5 percent of the U.S. municipal waste stream.

RECYCLE PLASTIC BAGS
 Plastic bags are 100% reusable and recyclable. Recycle your plastic bags in the bins outside your local grocery store.

That's why banning bags won't reduce overall litter.

Diffusion of Single-use Plastic Bags Ban Policy in California by Cities From 2008 to 2018

Agent with Black: Total Ban on the Single-use Plastic Bags
 Agent with Blue: 10 cents charges on reusable/paper bags
 Agent with Red: 25 cents charges on reusable/paper bags
