IU INDIANA UNIVERSITY

Office of Insurance, Loss Control & Claims
University Unmanned Aircraft Systems Site

IU Registration

Every entry on this form *except* Wing Number and Comments (you may have none) are required information for IU authorization. The wing number is required before submission to the FAA.

If you need to come back to the form with additional information, use the button to save information. You can come back as many times as needed. You can use the link you'll receive in your success email *or* make note of the **IU File Number** for future reference and use the button to access your information.

When you have entered all the information needed for IU authorization, click the button. You will be contacted about next steps when it is authorized. You may be contacted for more information during this process.

After receiving IU approval and *after* purchasing the UAS you will need to return to this site (keep the link you'll receive in an email) to 1) complete supplementary information necessary for us to obtain insurance coverage and 2) supply the extensive information needed for the FAA application.

IU File Number	31
Have you read	**The policy?** Yes No
	The procedures? Yes No
	The safety procedures? Yes No
Department	Select from the dropdown, if possible. Otherwise, enter the department in the field on the right.
